

Second Annual Georgia Glycoscience Symposium
Complex Carbohydrate Research Center
May 18, 2006

- | | | | |
|--------------|---|-------------|--|
| 9:00 | Coffee and Danish | 1:30 | Kelley Moreman, Complex Carbohydrate Research Center, the University of Georgia, "Regulation of Glycan Structures in Animal Tissues: Transcriptome Analysis of Glycan-Related Genes." |
| 9:30 | Introduction | 1:55 | John Thorson, University of Wisconsin School of Pharmacy, "Glycosylating Natural Products – Challenges and Opportunities." |
| 9:45 | James Paulson, Scripps Research Institute, "Sweet Spots in CD22 Regulation of B Cell Signaling." | 2:45 | Break/Posters |
| 10:35 | Break/Posters | 3:05 | Julie Leary, University of California, Davis, "Chemokine-Glycosaminoglycan Interactions: Specificity of Binding Partners." |
| 10:55 | Mahendra Rao, Johns Hopkins University, "Self-renewal of Mouse and Human Embryonic Stem Cells." | 3:55 | Steve Homans, University of Leeds, United Kingdom, "Water, Water Everywhere—Except Where it Matters." |
| 11:45 | Lance Wells, Complex Carbohydrate Research Center, the University of Georgia, "Defining the Secreted Glycoproteome of Cancerous and Diabetic Cells." | 4:45 | Tours/Posters/Reception |
| 12:10 | Lunch | | |
